95	38	3 3/4	1 1/2
100	42	4	1 5/8

### Comments

- RG H 12 gauntlet folders are fitted to a heat pressing machine usually manufactured in pairs.
- The left and right hand folder are used to produce sleeve epaulette on shirt sleeves shown in the illustration above with a unique folding device to produce a pre folded end all in one go.
- It can also be supplied without this device at less cost than a gauntlet folder set.
- Please state which type you require.
