

Important Notice

THE SIZES GIVEN IN THE METRIC COLUMNS ON EACH PAGE ARE NOT NECESSARILY EXACT EQUIVALENTS TO THE IMPERIAL SIZES STATED AND VISA VERSA.

Terms & Definitions

Extra Light	XL	1 mm	These sizes refer to the thickness of the binding or tape to pass through the folder. Please take into account any seams or joins as the thickest part of the binding or tape must be able to pass through.
Light	L	1.5 mm	
Medium	M	2 mm	
Medium Heavy	MH	2.5 mm	
Heavy	H	3.5 mm	
Extra Heavy	XH	4.5 mm	

- Start Size:** The size of the tape or binding before entry into the folder.
- Finish Size:** The required size of the tape or binding upon exit from the folder.
- Mouth Size:** The amount of clearance in the mouth of the folder. This should be ascertained by measuring the largest seam or join you wish to bind over.
- Adjustable Jaws:** Can be fitted to the mouth of some folders and move from left to right to enable you to achieve level folded edges.

Please note:

Feet can be supplied with each Folder or Attachment on request and may also be supplied separately if required. Simply give Folder type and start and finish size together with make and model number of machine.
